Networking: TCP/IP, DHCP / DNS, Wi-Fi setup, Printer sharing

SUMMARY

I am Abdirizak Suleiman, an IT Support professional with hands-on experience in hardware and software troubleshooting, Windows installation and administration, Active Directory, Windows Server, Microsoft 365 administration, printer support, networking, and ServiceNow. My knowledge has been developed through technical training, self-learning, and real-world IT support experience.

EXPERIENCE

IT support (informal) — Nahdhah schools, Nakuru

January 2026 – August 2026

- diagnosed and resolved 4 recurring printer faults, including paper jams, blank printers, feed errors and printer quality issues
- performed routine printer maintenance including ink refills and driver/firmware updates
- Extended network connectivity to two offices by installing a second router and running/terminating Ethernet cable from the main router.

PROJECTS & LABS

Windows Server And Active Directory

- installed and configured 3 windows server 2022 in a virtual lab environment as part of Hurbad course work
- Set up Active Directory: created and managed user accounts, assigned roles and permissions, configured file sharing and performed password resets
- configured windows 11 as a domain client to practice domain-join operations

Microsoft 365 Administration

- created and managed user accounts in Microsoft 365 admin center
- assigned licenses and role-based permissions
- handled user onboarding tasks within MS365
- Configured Exchange Online mailboxes and assisted with basic Outlook email administration and troubleshooting.

Operating System And Hardware

- performed clean installation of Windows 11 pro across 10+ physical machines (Lenovo and HP) by creating bootable USB installation media and configured BIOS boot order
- Disassembled and reassembled laptops and desktop computers, including removal and reinstallation of power supply units, RAM and hard drives

ServiceNow

- practiced ServiceNow administration using a trial instance: created and managed user accounts and performed password resets
- worked with sample /demo tickets in the platform: reviewed assigned tickets, updated status and practiced escalation workflows.
