

EUGINIA GATHONI NDIRANGU

PROFESSIONAL SUMMARY

Motivated and detail-oriented Bachelor of Business Information Technology (BBIT) aspiring professional with a strong foundation in technology-driven business solutions and hands-on experience in ICT support and business operations. Proven ability to apply technical skills in systems operations, data management, and user support to solve real-world problems. A quick learner with excellent problem-solving, communication, and teamwork abilities, seeking to contribute to a dynamic organization as an IT support or data management professional.

EXPERIENCE

ICT INTERN – July 15 – September 4, 2026 Nakuru Vocational Training Center

- Provided first-line IT support to staff and students, resolving hardware and software issues to minimize downtime.
- Installed and configured computer systems and peripherals (Windows, macOS, printer, monitors)
- Supported the IT team in network troubleshooting and connectivity maintenance across the institution.
- Managed IT asset inventory and configuration records for all systems.

BUSINESS DEVELOPMENT INTERN – January 15 – March 31, 2024 Kenya Power & Lighting Company (KPLC)

- Supported the business development team in market research and customer engagement initiatives to identify growth opportunities.
- Assisted in preparing business reports, proposals, and presentations, applying business communication and management principles.
- Participated in workflow coordination and task scheduling, gaining practical exposure to administrative and operational processes.
- Collaborated with team members to organize and maintain documentation, improving record-keeping efficiency.

CORE SKILLS

- Microsoft Excel & data analysis
- Computer hardware & software troubleshooting
- Network basics & connectivity troubleshooting
- Database concepts
- Systems Analysis & Design
- Programming logic
- Data entry & management
- Documentation & record keeping
- Business communication
- Problem-solving
- Teamwork & collaboration
- Adaptability & quick learning

PROJECT & ACADEMIC WORK

TOUR RECOMMENDATION SYSTEM Individual Project

- Designed and developed a tour recommendation system as an individual academic project, applying systems analysis and design principles.
- Integrated database concepts to store and retrieve tourist destination information based on user preferences.

-
- Utilized programming logic to create a functional prototype that suggests travel destinations tailored to user inputs.

INVENTORY MANAGEMENT PRACTICES AND SUPPLY CHAIN PERFORMANCE OF DAIRY PROCESSING FIRMS IN NAKURU COUNTY, KENYA

Team Project

- Co-researched inventory management and supply chain performance for Brookside Dairy, focusing on waste reduction and logistics.
- Applied data collection and analysis techniques to evaluate inventory control methods, including Just-in-Time (JIT), Economic Order Quantity (EOQ), and safety stock management.
- Worked collaboratively to develop actionable recommendations for dairy processing firms to optimize inventory levels and enhance overall supply chain performance.

INTEREST

Reading (self-development & fiction), cooking (trying new cuisines), travel (cultural immersion), and adventure (hiking & outdoor exploration).
