PROFESSIONAL PROFILE

HR Generalist with 3 years' experience in managing end to end HR operations at a multinational corporation. I am currently working as a HR Generalist, managing HR Operations for Kenya and Mozambique. My experience spans across end-to-end recruitment and talent retention, HR compliance, employee relations, performance management, learning and development and Compensation and Benefits.

I enjoy being the person people can come to for practical HR guidance, while making sure processes are fair, well-managed and aligned with the needs of the business. I am comfortable working in fast-paced environments, handling sensitive employee matters and bringing structure to HR processes.

WORK EXPERIENCE

HR Generalist — Digital Realty

Nov 2024 – Present

- Manage day-to-day HR operations for a multinational, multi-country workforce across Kenya and Mozambique, partnering with managers and employees throughout the employee lifecycle.
- Lead end-to-end recruitment across technical, corporate and operational roles, from workforce planning and requisition through sourcing, assessment, selection, offer negotiation, background checks, onboarding and induction.
- Partner with hiring managers to define role requirements, develop practical recruitment approaches, manage timelines and ensure hiring decisions align with business needs.
- Advise managers and employees on employee relations, performance concerns, grievances, disciplinary processes, policy interpretation and other employment matters, balancing employee needs with business requirements and employment legislation.
- Manage employee lifecycle transactions including hires, onboarding, confirmations, transfers, promotions, compensation changes and terminations, ensuring accurate documentation, system updates and timely stakeholder communication.
- Coordinate monthly payroll inputs, including salary changes, deductions and leave, and work closely with Finance to ensure accurate and timely processing.
- Administer employee benefits and provide guidance to employees on medical, leave and other benefit-related processes.
- Coordinate performance review cycles and support managers with performance management, career progression, talent and succession initiatives.
- Support employee engagement and learning and development initiatives, working with managers to identify and address people and capability needs.
- Maintain and audit employee records across BambooHR and Oracle, ensuring data accuracy, completeness, confidentiality and compliance with internal and statutory requirements.
- Prepare HR reports and workforce analytics and use HR data, market information and workforce insights to support management decisions.
- Manage external recruitment partners and other HR stakeholders, ensuring service delivery and alignment with business requirements.
- Support HR process improvements, including SOPs, workflows, policy documentation and standardisation of HR processes across supported countries.

HR Intern — Digital Realty

Nov 2023 – Nov 2024

- Supported end-to-end recruitment and onboarding, partnering with hiring managers on candidate screening, interviews, selection and employee documentation.
- Supported onboarding and offboarding activities, coordinating documentation, system setup and employee lifecycle requirements.

- Maintained confidential employee records, contracts and personnel files, ensuring accurate and up-to-date HRIS information.
- Served as a point of contact for employee and manager queries relating to leave, benefits and HR processes.
- Supported performance review cycles, HR reporting and workforce metrics, including tracking completion and preparing management reports.
- Assisted with HR policy and communication development, learning and development initiatives, HR audits and process-improvement activities.

HR Attaché — Kenya Copyright Board

Jul 2022 – Oct 2022

- Supported recruitment activities including job advertising, application screening, interview coordination and candidate administration.
- Maintained employee records and processed HR documentation including appointment letters, leave records and overtime allowances through the ERP system.
- Conducted training needs assessments for new and existing employees and supported performance appraisal processes.
- Responded to employee queries on HR policies and benefits through the HR Information System.
- Supported promotion and salary review processes and conducted salary-market research to inform compensation decisions.
