EUSTER MUKARI ANYULA

Contact : 0793591699 Email Address : shilaeusters@gmail.com LinkedIn : www.linkedin.com/in/euster-anyula-b6a9a6226

PERSONAL DETAILS

Results-driven Health Systems Supervisor leveraging a strong background in healthcare operations and clinical administration to optimize resource utilization and streamline patient workflows. Proven ability to bridge administrative protocols and clinical teams to enhance Level 4 primary care. Highly skilled in clinical governance, revenue assurance, and SHIF/SHA compliance, with a track record of driving operational excellence and data integrity in high-volume hospital settings.

CORE COMPETENCIES

- **Workflow Optimization:** Designing efficient patient flows to manage both routine outpatients and inpatient care seamlessly.
- **Resource Allocation:** Managing medical supplies, pharmaceutical inventory, and equipment for the hospital's beds and clinical rooms.
- **Health Information Systems (HIS):** Utilizing digital health registries and patient management software to track clinical data and hospital metrics.
- **Duty Rota Scheduling:** Coordinating shift rotations for nurses, clinical officers, and support staff to ensure 24/7 coverage.
- **KMPDC Standards:** Ensuring the facility strictly adheres to the Kenya Medical Practitioners and Dentists Council guidelines.
- **NHIF/SHIF Management:** Overseeing accurate medical documentation and billing compliance for public and private health insurance schemes.
- **Quality Assurance (QA):** Conducting clinical audits and implementing infection prevention and control (IPC) protocols.
- **Interdepartmental Liaison:** Acting as a reliable bridge between senior administrative management and front-line clinical clinicians.
- **Conflict Resolution:** Mediating disputes between staff members or addressing patient grievances professionally and compassionately.
- **Staff Mentor-ship:** Training staff on hospital policies, professional ethics, and customer care standards.

WORKING EXPERIENCE

Health Systems Supervisor

CRYSTAL COTTAGE HOSPITAL – KITALE, KENYA

January 2025 – Present

- Monitor daily pending bills and claims across the Hospital Management Information System (HMIS), local insurance platforms and the SHA portal, ensuring timely action and resolution of outstanding items.
- Manage SHA pre-authorization and claims processes, including following up on sent-back claims, identifying and correcting errors, and resubmitting claims within agreed timelines to support successful reimbursement.
- Verify the accuracy, completeness and eligibility of insurance claims and supporting documentation, including attachment of clear and legible documents to relevant portals before submission.
- Support front desk operations during periods of high patient flow and staff shortages, assisting with patient reception, registration, inquiries, service coordination and smooth patient movement through the facility.
- Monitor admission, discharge and departmental handover processes, identifying workflow gaps and supporting effective coordination, continuity and accountability across departments.
- Conduct routine billing and revenue assurance reviews, confirming that all services provided are accurately captured, billed and reflected in the hospital system, and reconciling departmental service reports with corresponding billing.
- Audit patient records and documentation for completeness, including biodata, charge sheets, cadex, investigations, laboratory results and other clinical documentation, while ensuring corresponding services are properly billed.
- Compile and submit daily departmental coverage/footfall reports and monthly operational reports to the General Manager, providing management with timely information for monitoring hospital performance and decision-making.
- Conduct patient satisfaction surveys and feedback reviews, including analysis of suggestion-box feedback, to identify service gaps and support continuous improvement in patient experience.
- Monitor pharmaceutical and laboratory inventory controls, including medicine registers, expiry dates, reorder levels, laboratory consumables and stock movement, to support uninterrupted service delivery.
- Conduct physical stock spot checks and system-to-physical reconciliations, identifying discrepancies and supporting corrective action and proper accountability for hospital supplies and equipment.
- Monitor hospital equipment and maintenance requirements and verify the validity, documentation and billing of outsourced services to ensure appropriate utilization and accountability.
- Review departmental registers and operational documentation for accuracy and completeness, while monitoring compliance with established hospital procedures and documentation requirements.
- Support hospital-wide quality assurance, operational compliance and continuous improvement through routine audits, identification of gaps, follow-up of corrective actions and coordination with relevant departments.

Administrative Intern:

- Acted as the primary liaison between clients, tutoring staff, and management, ensuring clear communication and seamless coordination of services.
- Supported quality assurance and clinical risk management by conducting regular audits, compiling safety reports, and assisting in maintaining compliance with SAFECARE accreditation standards.
- Collaborated with clinical leads in monitoring and implementing continuous process improvement initiatives, including documentation accuracy and referral protocols.
- Coordinated monthly staff meetings, tracked learning and development hours, and facilitated internal training sessions to foster professional growth and compliance.
- Monitored inventory levels, supported procurement processes, and maintained up-to-date asset records, contributing to efficient resource and cost management.

Administrative attachee:

- **Office Management:** Managing the day-to-day operations of the office, including organizing and maintaining office supplies, scheduling meetings, and ensuring the office runs efficiently.
- **Customer Service:** Handling client inquiries, providing information, and maintaining communication with clients regarding their needs and deadlines.
- **Scheduling and Coordination:** Coordinating print jobs, scheduling timelines, and ensuring that management schedules are met. This includes liaising between the staff team, clients, and other stakeholders.
- **Data Entry and Record Keeping:** Maintaining accurate records of orders, invoices, inventory, and client information. This includes entering data into the company's management software.
- **Communication:** Serving as a point of contact between the company and clients, vendors, and other stakeholders. Managing phone calls, emails, and other forms of communication.
- **Administrative Support to Management:** Providing support to managers and other staff members, including preparing reports, presentations, and handling other administrative tasks as needed.
- **Maintaining Confidentiality:** Ensuring sensitive information, including client data and company records, is handled with the highest level of confidentiality.

Team Lead/Administrative Online Support
LAPID LEADERS COUNCIL - LAPID LEADERS AFRICA (LLA)
ONLINE PROGRAM
January 2022 - September 2025

- Planned and coordinated experiential learning activities such as leadership camps, field trips, and community service projects.
- Served as a personal guide and mentor to assigned students, supporting their development and progress throughout the program.
- Oversaw logistics for mentor-ship sessions by preparing venues, managing schedules, and ensuring smooth class operations.
- Organized and executed key events and initiatives within the organization, including transition ceremonies and leadership forums.
- Developed strong communication, planning, and organizational skills through consistent engagement in program delivery and team leadership.
- Collaborated cross-functionally with mentors, staff, and students to foster a value-based results-driven learning environment.
- Spearheaded telemarketing campaigns to recruit prospective students and stakeholders into Lapid programs.
- Conducted phone and virtual interviews to evaluate applicant suitability for leadership and personal development programs.
- Assessed applications, provided recommendations, and supported the admissions team in final selections.
- Coordinated logistics for weekly in-person and virtual classes, including scheduling facilitators, preparing learning spaces, and ensuring smooth class flow.
- Provided ongoing guidance and mentor-ship to students, tracking their progress and offering personal support throughout their training journey.
- Maintained consistent communication with students, alumni, and program staff via calls, messages, and email follow-ups to enhance engagement and retention.
