PROFESSIONAL EXPERIENCE

Xeon Holdings | Transport Administrator | 2020 – Present

Fleet Administration • Driver Administration • Compliance • Claims • Maintenance • Reporting

Fleet Administration & Records

- Maintain an accurate fleet register for company vehicles and trailers, including registration, VIN/chassis, engine, licensing, COF, insurance, tracking, assigned driver, location and vehicle status.
- Maintain organised electronic and physical fleet files and ensure vehicle documentation is current, accessible and audit-ready.
- Track vehicle status, downtime, transfers, repairs, write-offs and disposal, and prepare fleet administration reports for management.

Licensing, COF & Legal Compliance

- Monitor vehicle and trailer licence renewals, temporary licences, Certificates of Fitness (COF), roadworthy certificates, permits and statutory documentation.
- Arrange bookings with testing stations, follow up on outstanding certificates and ensure vehicles are not operated with expired mandatory documentation.
- Liaise with licensing departments, testing stations and relevant authorities to maintain fleet compliance.

Maintenance, Repairs & Workshops

- Maintain service and maintenance schedules; monitor service intervals and coordinate vehicle bookings with approved workshops and service providers.
- Track repairs, parts, labour, maintenance costs, workshop reports and outstanding defects; follow up on delayed repairs and recurring mechanical issues.
- Coordinate vehicle collection, delivery, towing and movement between depots, repairers, assessors and recovery facilities.

Accidents, Insurance Claims & Repairs

- Register vehicle accidents and incidents and manage supporting documentation including driver statements, police/OB references, photographs, third-party details, quotations and assessments.
- Liaise with insurers, claims teams, assessors and approved repairers; obtain claim numbers and follow up on repair authorisations.
- Monitor accident repair progress, insurance excess payments, third-party claims and vehicles that may be uneconomical to repair/write off.

Fuel, E-Tags & Toll Administration

- Administer fuel cards, monitor transactions and fuel consumption, investigate unusual or suspicious transactions and prepare fuel reports.
- Manage E-Tags and toll accounts, including allocations, cancellations, transaction monitoring and discrepancy resolution.
- Manage TFN/prepaid toll administration, monitor balances, arrange top-ups and maintain proof-of-payment records.

Tracking, Cameras & Driver Compliance

- Administer vehicle tracking and camera systems, including device records, installations, removals, faults, replacements and authorised-user access.
- Request tracking reports and camera footage for accidents and investigations; coordinate camera inspections and hard-drive retrievals.
- Monitor driver behaviour and compliance using tracking/camera information, identifying speeding, harsh driving, unauthorised use and other violations for escalation to management/HR.

Driver Administration & Support

- Maintain driver records and monitor driver licences, professional driving permits and other required documentation.
- Assist drivers with breakdowns, accidents, fuel-card problems, toll issues, vehicle documentation, maintenance and inspection requirements.
- Maintain records of driver-related incidents and communicate company vehicle responsibilities and compliance requirements.

Traffic Fines, Inspections & Breakdowns

- Maintain the traffic fine register, identify responsible drivers, obtain supporting information and follow up on outstanding fines.
- Arrange vehicle inspections, record defects, coordinate corrective repairs and monitor recurring defects.
- Coordinate roadside assistance, towing and recovery; monitor breakdown repairs and report recurring mechanical problems.

Fleet Costs, Invoices & Reporting

- Verify fleet-related invoices against quotations, authorisations and completed work; submit for payment, obtain POPs and follow up on outstanding payments.
- Monitor fuel, maintenance, repair, towing, insurance excess, licensing, COF/testing and toll costs; identify unusual expenditure and downtime.
- Prepare reports covering fleet availability, downtime, maintenance, fuel consumption, accidents/claims, repairs, compliance, fines, driver violations, camera incidents and fleet expenditure.

Suppliers, Compliance & Communication

- Liaise with insurers, panel beaters, workshops, tyre suppliers, testing stations, tracking/camera providers, fuel-card and toll providers, towing companies and licensing agents.
- Prepare documentation for audits, maintain confidential records, identify compliance gaps and support corrective actions.
- Act as a central point of communication between drivers, Transport Management, HR, Finance, Operations and external service providers.

Rage Store | Customer Assistant | 2019 – 2020

- Conducted monthly stock taking and maintained accurate stock records.
- Identified customer needs, managed complaints and processed customer requests.
- Resolved customer complaints and provided feedback on customer-service processes.
- Managed the sales floor and supported day-to-day store operations.

SYSTEMS & SOFTWARE

SAP: Capturing customer orders, creating delivery routes and managing stock quantities.

Cross Border Portal: Applying for and renewing cross-border permits for vehicles.

Absa & Payment 24 (Masana): Obtaining daily balances, tracking transactions, reconciling driver fuel receipts and generating monthly reports to identify discrepancies/fraud.

Edocs: Scanning invoices, manifests and GDNs for Finance and client billing.

Mango: Registering accidents and incidents including stock shortages, damages, stolen stock, pallet damages, stock rejections and tyre punctures.

Microsoft Teams: Maintaining maintenance records, tyre surveys, vehicle checklists, daily registers, kilometres, service schedules, job cards and updated licences.

Pulsit: Tracking vehicle movements, planned routes, allocations and driver overtime.

Pulscam: Monitoring vehicle cameras, driver locations and compliance with company policies and safety procedures.
