Dear Sir/Madam,

RE: APPLICATION FOR POSITION ADVERTISED

I am writing to express my interest in joining your team. I bring approximately six years of hands-on experience in logistics, five years of experience mentoring and developing e-sports athletes. While these roles may appear different on paper, they have consistently required the same core strengths such as accountability, being reliable, communication, problem-solving and the ability to perform effectively when circumstances change quickly.

Over the past six years in logistics, I have developed a practical understanding of coordinating the movement of goods, following up on deliveries, resolving operational issues and working with different stakeholders to keep processes moving. I have learned that successful logistics is often less about having a perfect plan and more about identifying problems early, communicating clearly and finding workable solutions before delays become bigger issues.

My five years as an e-sports mentor and athlete have strengthened another side of my professional experience. I have worked with players with different personalities, skill levels and goals, helping them establish routines, review performance, respond constructively to setbacks and remain accountable to agreed objectives. One of the most rewarding aspects has been turning performance issues into specific, actionable improvements. This experience has significantly strengthened my communication, conflict-management and leadership skills.

I would welcome the opportunity to discuss how my background and practical approach could contribute to your organization. Thank you for considering my application.

Kind regards,

Alex Omondi Odhiambo
