HUMAN RESOURCES OFFICER

6th Oct 2026

Human Resource Team,
Accord Medical Supplies Ltd,

Dear Hiring Team,

RE: Application for Human Resources Officer Position

I am writing to express my interest in the Human Resources Officer position at Accord Medical Supplies Ltd. With over five years of progressive experience in Human Resource Management, I have developed practical expertise across the employee lifecycle, including recruitment and onboarding, employee records management, payroll and benefits support, performance management, employee engagement, HR compliance, and HR systems administration.

In my current role as a Human Resource and Operations Officer at City Sprint Fulfillment Centre, I coordinate and support key HR processes, including recruitment, onboarding, employee documentation, payroll administration, performance management, employee engagement, policy implementation, and HR compliance. I have contributed to streamlining HR processes, improving payroll accuracy, maintaining reliable employee records, and ensuring that HR services are delivered accurately and within required timelines. These responsibilities have strengthened my ability to work with employees and managers at different levels while maintaining a high level of confidentiality, professionalism, and attention to detail.

Previously, as a People Operations Specialist at Culturelligence, a U.S.-based organization operating across multiple countries and regions, I gained valuable international experience supporting geographically dispersed and multicultural teams. I managed employee data across different jurisdictions, coordinated people-related processes, and supported HR initiatives aligned with organizational policies and global best practices. This experience enhanced my ability to work effectively in diverse environments and reinforced the importance of accurate HR records, timely employee support, confidentiality, and consistent application of HR processes.

My experience closely aligns with the requirements of this role, particularly in supporting the employee lifecycle, recruitment and onboarding, personnel records, HRIS administration, contracts and employee documentation, payroll inputs, benefits administration, performance management, learning and development, employee welfare, and HR compliance. I am proficient in HR and enterprise systems including BambooHR, Sage HR, Workday, SAP SuccessFactors, and Oracle HCM, and I am comfortable using digital systems to maintain accurate employee information and support efficient HR service delivery.

I also possess a strong understanding of Kenyan employment and statutory compliance requirements, including PAYE, NSSF, SHIF, HELB, and Housing Levy regulations. I understand the importance of operating within approved HR policies, maintaining confidentiality, safeguarding employee information, and appropriately escalating sensitive or complex matters to the relevant management level.

I hold a Bachelor of Science in Human Resource Management, am a Full Member of the Institute of Human Resource Management (IHRM), and a Certified PeopleOps Specialist. I am confident that my combination of local HR expertise and international exposure would enable me to make a valuable contribution to your organization.

Yours sincerely,
Byron Opollo
