Dear Hiring Manager,

Re: Application for HR/BDE/Admin role

I am a people-data person at heart — MBA in HR & Business Analytics (9.07 CGPA) with hands-on experience translating workforce data into decisions. My internships at Subros Ltd. and Sri Anusham Rubber Industries gave me direct exposure to HR operations: talent acquisition, HRIS management, workforce MIS reporting, and HR dashboards used for planning.

On the analytics side, I am comfortable working with HR data — building MIS reports, tracking workforce metrics, and presenting insights through dashboards. My technical background (Python, MS Office Suite) supports data handling and process analysis, which I view as core to any Business Analyst or HR Ops role.

Tools: MS Excel, Python, HRIS platforms, JIRA, MS Office Suite. Fluent in English, Tamil, and Hindi.

I would welcome the opportunity to discuss how my experience aligns with your requirements. Please find my CV attached for your reference. I am available at your convenience and may be reached at +91 87785 22671 or iyappanaakash222@gmail.com.

Yours sincerely,

Aakash Iyappan
