

Dear Hiring Manager,

RE:APPLICATION FOR THE POSITION OF HUMAN RESOURCE ASSISTANT

A Bachelor's degree in Human Resource Management from JKUAT, combined with hands-on HR administration experience and a background in financial operations, positions me well for the HR Officer role at Power Vision. My exposure spans the employee lifecycle, records management, and the kind of financial accuracy that payroll ownership demands.

During my HR internship at the National Council for Population and Development, I supported end-to-end recruitment, shortlisting over 50 candidates and facilitating onboarding for more than 20 new staff members. I also cleared a backlog of 1,000-plus employee records, strengthening document retrieval and audit readiness across the department. That foundation in HR administration, compliance support, and data accuracy is what this role calls for in its day-to-day operations. Alongside this, my current position as a Cashier and Billing Officer at Baus Optical Ltd has deepened my financial discipline: I reconcile high-volume transactions daily with zero variances and maintain confidential customer and financial records to a high standard of accuracy. That combination of HR process knowledge and financial rigor is directly relevant to managing payroll and statutory remittances, including PAYE, NSSF, and SHIF, reliably and on time.

The role's breadth, from employee lifecycle management and statutory compliance to HR reporting and vendor coordination, matches the range of responsibilities I have carried across structured and fast-paced environments. My JKUAT degree has grounded me in Kenyan labor law and HR policy, and I am eligible for IHRM membership, which I am actively pursuing.

I would welcome the chance to discuss how my background fits the team's needs. I am available for an interview at your convenience and can provide supporting documentation on request.

Yours faithfully,
Patricia Njeri Gachuki
